

Like A Garden

A marriage is like a garden -  
It needs a lot of tender, loving care -  
and sunshine.

It must be cultivated, watered and tended -  
So it will grow - filled with lovely things ...  
Flowers and plants - Some small and tender -  
Others strong and tall.

Do pull the weeds when young -  
Or they may not be pulled at all!

Give of yourself - unselfishly and to be sure  
Genuine love, true concern  
And show little kindnesses!

All will come back to you,  
Brimfilled and running over!

What you sow - that you will reap  
In marriage!
